

BIG WHITE

2014/2015 SPECIALS

BIG WHITE

Big White averages 24.5 feet (7.5 metres) of fresh champagne powder per year. Locals call it "Hero Snow" because it makes you look so good!! The mountain's amazing 2,765 acres of skiable terrain make it the second biggest mountain in British Columbia.

Big White's abundant snowfall, mild temperatures and plenty of sunshine make it an ideal place for skiers of any level. Every night after the lifts close, our expert grooming team set out to deliver velvety swales of corduroy for your skiing pleasure.

RESORT ACTIVITIES

60 Foot Ice Climbing Tower
